

Fostering Children with Disabilities

BIRMINGHAM
CHILDREN'S TRUST

**Foster
Birmingham**
Birmingham's biggest family

The number of children with disabilities and / or complex health needs entering foster care is rising. Better diagnoses, increased awareness, and family challenges mean more children need specialised support than ever before.

Unfortunately, our current cohort of foster carers is not growing at the same pace. This leaves vulnerable children without the care and stability they desperately need. We urgently need compassionate individuals who can provide these children with the stability, care, and support they need to reach their full potential.

Why Foster Children with Disabilities?

- **Make a Real Difference:** Help a child with disabilities and / or complex health needs grow and thrive in a loving home.
- **Celebrate Unique Progress:** Share the joy of every personal milestone they achieve.
- **Build Strong Connections:** Develop deep and rewarding relationships with the children you foster.
- **Discover new things about yourself:** You might discover you are stronger than you originally thought or start to question your values and priorities.

Our Support Offer

- **Specialised Training:** Receive training tailored to the needs of the children you care for, ensuring you feel confident and equipped.
- **Ongoing Support:** Our dedicated team is always available to provide advice, guidance, and resources whenever you need them.
- **Community Access Information:** Gain access to inclusive groups and activities to help foster children build social and independence skills.
- **Professional Networks:** Work alongside education and healthcare professionals to ensure the children you care for receive comprehensive support.
